JOY K 215C
What sets the K215C apart? Let us count the ways!

Exceptional Design
The K215C stands out with its striking design, setting a new standard for self-service kiosks.

Advanced Technology
Packed with cutting-edge technological solutions, the K215C is ready to elevate your business operations.

Unmatched Quality
Crafted with precision and built to last, the K215C is a symbol of durability and excellence.

Industry Versatility
Tailored to serve the QSR (Quick Service Restaurant), hospitality, and non-food retail sectors, the K215C is a versatile solution for various businesses.

Generous 21.5-Inch Display
Featuring a spacious 21.5-inch touchscreen display, the K215C seamlessly integrates into your workspace.

Revolutionary Printer
Say goodbye to frequent paper roll changes! The K215C boasts a printer with a paper roll that stretches up to an impressive 250 meters, five times longer than typical kiosk printers.

Efficient Barcode Scanning
Equipped with a 1D/2D barcode scanner, the K215C simplifies transactions and enhances customer convenience.

Payment Terminal Compatibility
The K215C is designed to work seamlessly with most available payment terminals, ensuring smooth and hassle-free transactions.

Passive Cooling System
Our innovative passive cooling system keeps the processor running at the ideal temperature, ensuring long-term reliability and minimizing downtime.

Optional module with microphones and camera
